Last Summer

David Gray

Baby, make like we did last summer Baby, make like we did last year

Dived, plunged into your eyes Living every hour like a century There will I always be

Want it, not till it's good and ready Good and ready to break like a diamond wave Diamond wave yeah, to take me and drag me under So far under, that I can't hardly breathe

Dived, plunged into your eyes Living every hour like a century There will I always be
