## Lorelei

At the Lorelei Sing it sweet for me tonight All my dreams to long tonight If only i could be the one Hold on tight I need ya son Wouldn't even fire the gun If only I could be

Tie your heart and soul To the lightning pole Still it ain't no guarantee In the firing line Find your eyes aren't blind Pretty soon i'm free

At the Lorelei Sing it sweet for me tonight All my dreams to long tonight If only i could be the one Oh my god I need ya son I won't ever let ya down If only It could be

Through the carnage thorn With your face like stone Till there ain't no dignity Pretty soon i'm free

At the Lorelei Sing it sweet for me tonight All my dreams to long denied If only i could be the way Say those things we used to say Sometime was back yesterday If only It could be

If only It could be If only It could be
