

We Could Fall in Love Again Tonight

David Gray

Could stay here forever
Where echoes return
There's glory to gather
There's money to burn
But I just can't help from thinking
If I had you by my side
That we could fall in love again tonight

What kind of existence?
To want you so much
And only feel the distance
Each time when we touch
Been a lot of water flowing
Babe we could just let it slide
Then we could fall in love again tonight

I'll be there in a minute
Baby just you sit tight
Then we could fall in love again
We could fall in love again
We could fall in love again
Tonight
Tonight
Tonight
Tonight
