

# We're Not Right

David Gray

Feel the weight if this passing time  
All those crazy faces run through my mind  
And that song has brought a teardrop to my eye  
Can't tell the bottle from the mountain top  
No we're not right

I see this world but I can't relate  
Hey that everything must accelerate  
Betty Ford oh won't you be my valentine  
Can't tell the bottle from the mountain top  
No, we're not right

Can't tell the bottle from the mountain top  
And now my hands are shaking  
But i just can't stop  
Can't tell the bottle from the mountain top  
No we're not right

Can't tell the bottle from the mountain top  
And now my hands are shaking  
But I just can't stop  
Can't tell the bottle from the mountain top  
No we're not right

When I'm weak and my head is sore  
And I feel like I can't go on no more  
I come in here where normal rules do not apply

Can't tell the bottle from the mountain top  
No we're not right  
Can't tell the bottle from the mountain top  
No we're not right  
Can't tell the bottle from the mountain top  
No we're not right

Yeah Yeah  
Yeah Yeah
