

We're Not Right

David Gray

Feel the weight of this passing time
All those crazy faces run through my mind
And that song has brought a teardrop to my eye
Can't tell the bottle from the mountain top
No we're not right

I see this world but I can't relate
Hey that everything must accelerate
Betty Ford oh won't you be my valentine
Can't tell the bottle from the mountain top
No, we're not right

Can't tell the bottle from the mountain top
And now my hands are shaking
But i just can't stop
Can't tell the bottle from the mountain top
No we're not right

Can't tell the bottle from the mountain top
And now my hands are shaking
But I just can't stop
Can't tell the bottle from the mountain top
No we're not right

When I'm weak and my head is sore
And I feel like I can't go on no more
I come in here where normal rules do not apply

Can't tell the bottle from the mountain top
No we're not right
Can't tell the bottle from the mountain top
No we're not right
Can't tell the bottle from the mountain top
No we're not right

Yeah Yeah
Yeah Yeah
