Always

David Guetta

I'm hurting deep inside And it's like that always The passion was not ours to keep (to keep) The feelings justified You're giving me this heartache Rejection comes in and cuts so deep (so deep) Now everywhere I turn All my bridges burn Why can't you see all I need come set me free [Chorus] 'Cause I still can feel you always My love can heal you always It too can heal you always Alright, always I still can feel it always I still believe it always I can't conceal it always Everywhere I go, it's like you're there beside me Possession makes my heart pretend, pretend Cause I just can't let go Why did love ever find me To give affection once again But too late I feel I tried inside With all of my pride Why can't you see all I need come set me free

[Chorus]
