

Distortion

David Guetta

Let me hear the beat, it just keeps going huh?
Oh its fast, can you slow it down, just a little bit?
OK, can I hear a little more rhythm?
Make a little louder sugar!
Yeah that's really bad.
Nothings changed, Nothings changed, Nothing changed
But everything must change!
There we go, now were doing something.

A little distortion in my left ear
A little distortion tell me can't you hear
A little distortion in my left ear
A little distortion tell me can't you hear

Cause it feels good to me
Makes me feel aright
It feels good to me
Makes my burdens light
