Distortion

David Guetta

Let me hear the beat, it just keeps going huh? Oh its fast, can you slow it down, just a little bit? OK, can I hear a little more rhythm? Make a little louder sugar! Yeah that's really bad. Nothings changed, Nothings changed, Nothing changed But everything must change! There we go, now were doing something.

A little distortion in my left ear A little distortion tell me can't you hear A little distortion in my left ear A little distortion tell me can't you hear

Cause it feels good to me Makes me feel aright It feels good to me Makes my burdens light
