

# Give Me Something

David Guetta

Deep in my heart  
we both know that it's true  
that nothing from nothing means nothing  
I don't want a one way love affair  
'cos you know that ain't fair  
if we're gonna do this  
you'll have to give me something

You're teasing me  
just set me free  
unhappily  
casanova, but I told ya'  
just get over amusing me

Telling lies straight to my eyes  
your sexy smile won't work this time  
what I have with you is soon to go  
so bring or you can hit the door

Deep in my heart  
we both know that it's true  
that nothing from nothing  
means nothing (something baby)  
I don't want a one way love affair  
'cos you know that ain't fair  
if we're gonna do this  
you'll have to give me something baby  
(give me something baby)

Give me something  
you've got to give me something  
(gotta give it to me baby)  
give me something  
you've got to give me something  
got to give, you got to give  
got to give, you got to give

Give me something  
you've got to give me something  
(deep in my heart)  
give me something  
you've got to give me something  
(something from nothing means...)

I can see you're injection  
into my direction  
it's coming strong  
but not for long  
I've got the power  
to let you know  
that what you want here  
is not for show  
though you're looking good  
and smelling hot  
it's not enough to feel the hot  
so if you want what I got you got to give me something  
that hits the spot

Deep in my heart  
we both know that it's true  
that nothing from nothing means nothing  
I don't want a one way love affair  
'cos you know that that ain't fair  
you'll have to give me something

Deep in my heart  
we both know that it's true  
that nothing from nothing means nothing  
I don't want a one way love affair  
'cos you know that that ain't fair  
you'll have to give me something

Give me something  
you got to give me something  
got to give me, give me happiness  
give me something,  
you got to give me something  
give me something,  
you got to give me something  
give me something,  
you got to give me something  
or nothing at all

I got a feeling that you ain't trying to treat me right  
you might be sexy, you look good  
but you know what,  
that not enough to feel the hot  
you're coming up short here darling  
you can't be wondering around horny  
getting everybody  
and didn't looking at him  
over there...ohh...oh yes, yes  
I'm not having it  
'cos this girl got some much going on inside

And you know what?  
I don't need your money or anything  
I need your love  
I don't need your looks  
I need your love  
you know you've got to give me love

Deep in my heart  
we both know that it's true  
that nothing from nothing means nothing  
I don't want a one way love affair  
'cos you know that that ain't fair  
you'll have to give me something

Give me something  
you've got to give me something  
(gotta give it to me baby)  
give me something  
you've got to give me something  
got to give, you got to give  
got to give, you got to give

Give me something  
you've got to give me something  
(deep in my heart)

give me something  
you've got to give me something  
(something from nothing means...)
