

## Tomorrow Can Wait

David Guetta

Live life given now, tomorrow can wait  
Dance all through the night, sleeping all day  
Stuck inside a box, you gotta get out  
Stand up, get up, live your life now, come on

Stand up, get up  
Come on, yeah, yeah, yeah  
Come on, come on

Live life given now, tomorrow can wait  
Dance all through the night, sleeping all day  
Stuck inside a box, you gotta get out  
Stand up, get up, live your life now  
Come on, yeah, yeah, yeah

Come on, get up  
Stand up, get up  
Let's go right now

People lining through this life we lead  
Never knowing what we'll find out  
So we're living, working and waiting for the day  
There'll be something that's coming to take the pain away  
We wait for nothing inside your ways  
You gotta let that fun girl through

Live life given now, tomorrow can wait  
Dance all through the night, sleeping all day  
You're stuck inside a box, you gotta get out  
Stand up, get up, live your life now

Sometimes it feels  
How love indeed  
And we're just floating  
Searching infinity, infinity, infinity, infinity

Come on and dance here tonight, tomorrow can wait  
Dance all through the night, sleeping through the day  
Stuck inside a box, you gotta get out  
Stand up, get up, live your life now, come on
