

# A Star Looks Down Tonight

David Hasselhoff

I feel her close, I swear it's true  
Yes, I feel right in this moment  
She looks down on you

From angel's land  
Her tender hand is caring  
'Cause a mother's love will never end

Daddy, tell me what is heaven like  
Where is Mummy? I wanna hold her tight

A star looks down tonight  
Shining down and burning bright  
Though she's gone away  
Where the angels play

A star looks down tonight  
Daddy's here and everything's alright  
And our love goes on  
With a simple song, on and on

Daddy say if I should pray  
Could I talk to her  
And tell her all my secrets

Baby, do if it pleases you  
Let your mother know  
We love her so completely

Daddy tell me what is heaven like  
Where is Mummy?  
I wanna hold her tight

A star looks down tonight  
Shining down and burning bright  
Though she's gone away  
Where the angels play

A star looks down tonight  
Daddy's here and everything's alright  
And our love goes on  
With a simple song, on and on

Though she's gone away  
Where the angels play  
A star looks down tonight  
Daddy's here and everything's alright  
And our love goes on  
With a simple song on and on
