

All The Right Moves

David Hasselhoff

Don't want to spend another year facing the same wall
Don't want to play another game bouncin' the same ball
Don't want to wait for that lucky break
Got a feelin' someday I'm gonna make
Yeah, all the right moves

A lot of people that I love are gonna be a left behind
I know this gonna be some lonely moments but I don't mind
I'll take a chance, it's a winner takes
In the end a winner always makes
Yeah, all the right moves

Late at night I'm still awake
I feel it come but I just can't wait
So many dreams that could all come true
Oh baby, if you only knew
Sometimes it feels like I just can't lose
I know I'm gonna make all the right moves

I see the future in your eyes
Yes, I can see that day
I'd like to say I'm gonna miss this place but I just don't feel
that way
I made a promise that I can't break
I told myself someday I'm gonna make
Yeah, all the right moves

Late at night I'm still awake
I feel it come but I just can't wait
So many dreams that could all come true
Oh baby, if you only knew
Sometimes it feels like I just can't lose
I know I'm gonna make all the right moves
