

Close To Heaven

David Hasselhoff

The road we both been walkin' on
Wasn't paved with gold at all
Still we always made it
Givin' up would be so wrong
Ain't there moments you recall

Tell me why you fake it
What's the reason for that sudden barricade
Didn't honesty for you and me
Open every gate

We were so close to heaven
But now we're close to hell
It's time for us to break the silence here today
We were so close to heaven
Don't give me your farewell
No devil can ever steal your heart away

Some demon put a spell on you
But I'm ready for the fight
Let me exorcise him
Well you what we gonna do
You just give me one more night
And I neutralize him
Let us tear them down those windy barricades
Didn't honesty for you and me
Open up the gates

We were so close to heaven
But now we're close to hell
It's time for us to break the silence here today
We were so close to heaven
Don't give me your farewell
No devil can ever steal your heart away

Don't believe his promises
His forbidden fruit
Sure will turn out bitter-sweet
It won't do no good

We were so close to heaven
But now we're close to hell
It's time for us to break the silence here today
We were so close to heaven
Don't give me your farewell
No devil can ever steal your heart away

Let's break the silence here today
We were so close to heaven
Don't give me your farewell
No devil can ever steal your heart away
