

# Hold On My Love

David Hasselhoff

Baby can you feel it - baby can you see it  
Baby can you hear it - I love you  
Baby can you feel it - baby can you see it  
Baby can you hear it - I love you

Hold on my love  
I'll always hear you callin'  
I'll be with you - all the time  
So hold on my love  
I'll catch you when you're falling  
Baby I'm yours - and you're mine

I know the times are changin'  
And the moments of joy won't stay  
Feelings are rearrangin'  
Straight roads sometimes lead astray

Hold on my love  
I'll always hear you callin'  
I'll be with you - all the time  
So hold on my love  
I'll catch you when you're falling  
Baby I'm yours - and you're mine  
Baby I'm yours - and you're mine  
Baby can you feel it - baby can you see it  
Baby can you hear it - I love you  
Baby can you feel it - baby can you see it  
Baby can you hear it - I love you

Goodbye's sometimes like dyin'  
But I live just to live with you  
True hearts are never lyin'  
Whatever comes - we'll get through

Hold on my love  
I'll always hear you callin'  
I'll be with you - all the time  
So hold on my love  
I'll catch you when you're falling  
Baby I'm yours - and you're mine

Hold on love - love hold on - hold on love

Hold on my love  
I'll always hear you callin'  
I'll be with you - all the time  
So hold on my love  
I'll catch you when you're falling  
Baby I'm yours - and you're mine  
Baby can you feel it
