

# I wanna move to the beat of your heart

David Hasselhoff

Well you can still hold my emotions  
With just one little kiss  
You can shake my world up  
Just by being near me like this  
If our bodies keep much closer  
I don't know what I'll do  
'cause I've been waiting for a lifetime  
To be lying next to you

Something in your eyes just burns right through me  
Something in your touch I need to know  
Oh don't you know

I wanna move move to the beat of your heart  
I wanna rock with you rock with you deep in the dark  
I wanna move move to the beat of your heart  
Until the night burns night burns down to the ground

Oh yeah  
Oh yeah  
Oh yeah  
Oh yeah  
Oh yeah yeah yeah

You've got to help me ease this pressure  
That is building inside  
You've got to help me feed this hunger  
That's driving me wild  
I wanna wrap my arms around you  
Feel the heat of the skin  
Until the fever takes me under  
And the passion takes me in

Something in your eyes just burns right through me  
Something in my heart I just can't fight  
All through the night

I wanna move move to the beat of your heart  
I wanna rock with you rock with you deep in the dark  
I wanna move move to the beat of your heart  
Until the night burns night burns down to the ground

Oh yeah  
Oh yeah  
Oh yeah  
Oh yeah  
Oh yeah yeah yeah

I wanna move move to the beat of your heart  
I wanna move move to the beat of your heart  
To the beat of your heart  
To the beat of your heart

Something in your eyes just burns right through me  
Something in my heart I just can't fight  
All through the night

I wanna move move to the beat of your heart  
I wanna rock with you rock with you deep in the dark  
I wanna move move to the beat of your heart  
Until the night burns night burns down to the ground

Oh yeah  
Oh yeah  
Oh yeah  
Oh yeah

I wanna move  
I wanna move  
I wanna move  
I wanna move

I wanna move move to the beat of your heart  
I wanna rock with you rock with you deep in the dark  
I wanna move move to the beat of your heart  
Until the night burns ...
