

# Night Rocker

David Hasselhoff

City lights are comin' on one by one  
So are the stars in the sky  
We're saying goodnight to the settin' sun  
That's where now world comes alive

I am the night rocker  
I wanna rock you all night long  
I am the night rocker  
I wanna love you in a song  
It's a sweet lullaby  
And I know you want to fly  
So come, let's fly away  
I am the night rocker

Kiss me and world is so cool and bright  
It's so much music in the street  
And when I'm walking you down the boulevard  
Something comes alive in me

I am the night rocker  
I wanna rock you all night long  
I am the night rocker  
I wanna love you in a song  
It's a sweet lullaby  
And I know you want to fly  
So come, let's fly away  
I am the night rocker

I don't mind the morning light  
I love it shining down on me  
But there's something about the night  
It feels so right, just you and me

I am the night rocker  
I wanna rock you all night long  
I am the night rocker  
I wanna love you in that song  
It's a sweet lullaby  
And I know you want to fly  
So come, let's fly away  
I am the night rocker

I am the night rocker...  
I am the night rocker...  
Let's fly, let's fly away

I am the night rocker...  
I am the night rocker...  
Let's fly, let's fly away

I am the night rocker...  
I am the night rocker...  
Let's fly, let's fly away.....
