

# No Words For Love

David Hasselhoff

I've been tryin' to tell you baby  
Just how good life could be  
If I just had you by my side for eternity  
But you're always goin' somewhere  
You've got something on your mind  
I know, I know, I could make the time  
But it's gonna be right  
And it's gonna be at night  
When we're all alone  
And I'm holding you tight  
And I'm lookin' in your eyes  
With the stars out up above  
I know, I'm tryin', but there's no

No words for love  
Not my love baby  
No words for love  
No not my love  
And I'm lookin' in your eyes  
With the stars out up above  
I swear, I try, but there's no

No bail, you're all baby  
In your dizzy little world  
When I look at you  
I see a tide, tide little girl  
Tide are waitin'  
Tide are waitin' for a chance  
A chance to let go  
And find some real romance  
But it's gonna be right  
And it's gonna be at night  
When we're all alone  
And I'm holding you tight  
And I'm lookin' in your eyes  
With the stars out up above  
I swear, I'm tryin', but there's no

For my love baby  
For my love baby  
Not my love baby  
Not my love baby  
No words baby  
No words baby  
No words baby  
No words baby  
For my love baby  
For my love baby  
Not my love baby  
Not my love baby  
For my love baby  
For my love baby
