

# Summer Of Love

David Hasselhoff

Summer of love  
Summer of love  
Summer of love

She was my first  
And I'll never forget her

The sun in your eyes  
The warmth of your smile  
This is the summer of love  
The wind in your hair  
Perfume in the air  
This is the summer of love  
Summer of love

Everybody loves the sunshine  
Everybody loves the blue sky  
All I got to do is look at you  
And suddenly everything is summertime  
I don't wanna wait anymore  
You give me the kind of feeling  
I've been aching for

The sun in your eyes  
The warmth of your smile  
This is the summer of love  
The wind in your hair  
Perfume in the air  
This is the summer of love  
Summer of love

We made it through another winter  
We made it through the snow  
We made it through the rain  
Now we're in for a change of weather  
Surrender to the power of the sun  
You make me feel like dancing all night  
And making love to you in the early morning light

The sun in your eyes  
The warmth of your smile  
This is the summer of love  
The wind in your hair  
Perfume in the air  
This is the summer of love  
Summer of love

I'll never forget that night we shared  
Remember how it feels

You make me feel like dancing all night  
And making love to you in the early morning light

The sun in your eyes  
The warmth of your smile  
This is the summer of love  
The wind in your hair

Perfume in the air  
This is the summer of love  
Summer of love

The sun in your eyes  
The warmth of your smile  
This is the summer of love  
The wind in your hair  
Perfume in the air  
This is the summer of love  
Summer of love
