

# What A Feeling

David Hasselhoff

What a feeling when you touch my heart  
Love will make a brighter day

You're my guardian angel  
Let your light shine for me  
Tomorrow I can't see a way without you

Lonely nights are over  
You're my magic in the dark  
Together we can light a fire of love

I can never live a day without you girl  
Baby hold my hands and let me hear you say  
Let's fly away

What a feeling when you touch my heart  
Love will make a brighter day  
Strong together for a better start  
Dreams come true on our way

Oh girl I can't remember  
How it was before  
My life was really empty without you

I can never live a day without you girl  
Baby hold my hands and let me hear you say  
I'm gonna stay

What a feeling when you touch my heart  
Love will make a brighter day  
Strong together for a better start  
Dreams come true on our way

What a feeling  
What a feeling when you touch my heart

What a feeling when you touch my heart  
Love will make a brighter day  
Strong together for a better start  
Dreams come true on our way
