

You

David Hasselhoff

Your eyes they tell me all the things you mean to say
I feel the same way as you
You are the first girl to count in my life
I, I live only for you

You alone are all I have in this world
You alone, you're my girl
You, only you can understand
You, you say I'm your only man

My life has changed since the day we first met
You brought the sun to my day
All through my life girl I'll stand by you
Please say you always will stay

You alone are all I have in this world
You alone, you're my girl
You, only you can understand
You, you say I'm your only man

Darling, I want to tell you something
That I've never told to anyone before
Not to anyone: I love you - and I will always love you
Darling, always, only you

Oh, what a world we both go through
One thing is true, my only love is you, is you, is you
I can't explain the things you mean to me
Words, they are just not enough
Without your love girl, I know that I'm lost
I, I just live for your love

You alone are all I have in this world
You alone, you're my girl
You, only you can understand
You, you say I'm your only man
You, only you can understand
You, you say I'm your only man
