

# Glory To God

David Hodges

On another cloudless night  
The winter air reminds me  
Of the bitter cold of life  
And how it leaves me wanting

And in my thunder from the sky  
All of heaven finds me  
Full of wonder and surprise  
With your glory surrounding

For life has been born this night  
Heaven and earth will rejoice  
My hope has been brought to life  
We sing with the angels

Worthy worthy is the lamb  
Worthy of all of the honor  
Son of God and son of man  
Shining your light in the darkness  
Giving your life so that love will reign again  
Glory to God on high  
Glory to God on high

The creator of our life  
Carried by creation  
So may every tongue and drive  
Join in celebration now  
Our God has not forgotten us  
Sending his son to restore  
All the love, a father has for us  
We sing with the angels

Worthy worthy is the lamb  
Worthy of all of the honor  
Son of God and son of man  
Shining your light in the darkness  
Giving your life so that love will reign again  
Glory to God on high  
Glory to God on high

The prince of peace, the mighty God, emanual, our shephard and keeper  
The bread of life, the one true vine, and the savior of my soul

Worthy worthy is the lamb  
Worthy of all of the honor  
Son of God and son of man

You are worthy worthy is the lamb  
Worthy of all of the honor  
Son of God and son of man  
Shining your light in the darkness  
Giving your life so that love will reign again  
Glory to God on high  
Glory to God on high  
Glory to God on high  
Glory to God on high
