

He Loved Me To Death

David Hodges

Far away the creator
Filled the void with light and life
To share with us his creation
And to hold us by his side
Through the eyes of the father
The son looked down
To see how far we've gone from him
Needing a savior to bring us to his side

But Jesus loved me, from the first touch
And he loved me, with his last breath
Jesus loved me, loved me so much
That he loved me to death

Here on earth the savior
Filled our world with light and life
To share with us his salvation
To return us to his side

And Jesus loved me from the first touch
And he loved me With his last breath
Jesus loved me loved me so much
That he loved me to death

He said Father let Thy will be done will be done
And He carried the weight of the world
If I was the only one
And trading his home for Calvary
And giving his life all for me, yeah

But Jesus loved me, from the first touch
And he loved me, with his last breath
Jesus loved me, loved me so much
That he loved me to death
But Jesus loved me, loved me so much
That me loved me to death
