

# Make Us Whole

David Hodges

Creator of the universe  
Keeper of my soul  
God of all eternity  
Never let me go

Cause we need you now more than ever  
The world that's so far from the truth  
Father please bring us together  
Cause we are so lost without you

We come before you now  
Here on this holy ground to praise you  
Father come make us whole  
With broken hearts we bring  
As a humble offering to thank you  
Father come make us whole

Creator of the universe  
Keeper of my soul  
God of all eternity  
Never let me go

Cause we need you now more than ever  
In a world that is so far from the truth  
Father please bring us together  
Cause we are so lost without you

We come before you now  
Here on this holy ground to praise you  
Father come make us whole  
With broken hearts we bring  
As a humble offering to thank you  
Father come make us whole

And without you  
Our lives will never be complete  
Cause father only you, can fill the void inside me

We come before you now  
Here on this holy ground to praise you  
Father come make us whole  
With broken hearts we bring  
As a humble offering to thank you  
Father come make us whole

We come before you now  
Here on this holy ground to praise you  
Father come make us whole  
With broken hearts we bring  
As a humble offering to thank you  
Father come make us whole  
Father come make us whole
