

# If You Were Never Here

David Houston

I burn the pictures I hocked the ring I got a rid of everything  
That had the slightest chance to make a mem'ry reappear  
I sold the house now that's the last of things that link me to  
the past

So how can you be gone if you were never here  
If you were never here I never loved you at all  
The past will be the future before a tear has time to fall  
The Salvation Army came and took the balance of your things  
So how can you be gone if you were never here

If you were never here...
