Smokey Blue Eyes

David Houston

I was sittin' alone in a bar yesterday Just passin' the time when I heard a sweet voice say How's about one far the road you and I Then I turned and saw an angel with smokey blue eyes We talked of the weather and things that we'd done We've laughed at each heartache like two kids a having fun I was in heaven I won't try to deny When I danced with an angel with smokey blue eyes

The jukebox was playing when I heard my heart sing For on her third finger I placed my class ring Well I'm not pretending oh I'll love her till I die As I turned and kissed the angel with smokey blue eyes Smokey blue eyes smokey blue eyes I fell so in love with smokey blue eyes
