

# Wonders Of The Wine

David Houston

I found a place that you won't believe a place  
Where your memories fade away  
And I'm here with a friend that's so good to me  
So good, I can't remember yesterday

But it's just one of the wonders of the wine  
One of the wonders that keeps me from losin' my mind

If you walked in right now, you'd think, I owned the world  
'Cause the women come around just to watch my style  
But when the warm red wine is gone and I remember you  
It's all that I can do to fake a smile

But it's just one of the wonders of the wine  
One of the wonders that keeps me from losin' my mind

But as long as I stay here, every thing's gonna be fine  
And it's one of the wonders of the wine
