Goodnight Sweetheart

Window seat 30,000 feet Above the ground Blue moon beams on silver wings Brings me down Slipping off my coat for the long night flight I finda note she wrote last night I can almost hear those words As I close my eyes:

Goodnight Sweetheart sleep tight Where ever you are God hold you in his arms While we're apart Though you're far away Your love will stay Tucked away here in my heart Goodnight, sweetheart, sleep tight Where ever you are

These days I leave The one who needs me More and more it seems It's a high price that she pays For the dreams I dream

Goodnight Sweetheart sleep tight Where ever you are God hold you in his arms While we're apart Though you're far away Your love will stay Tucked away here in my heart Goodnight, sweetheart, sleep tight Where ever you are

Goodnight, Sweetheart, sleep tight Where ever you are
