

# I Breathe In, I Breathe Out

David Kersh

Lately I've been running into our old friends  
And somewhere in the small talk  
Someone always asks where you've been

So I tell them what you told me  
And they can't believe we're through  
They ask me what I'm doin' now  
And in case you're wondering too

I breathe in and breathe out  
Put one foot in front of the other  
Take one day at a time

Till you find  
I'm that someone you can't live without  
But until then  
I'll breathe in and breathe out

I've got every reason to find someone new  
'Cause you swore up and down to me  
I've seen the last of you

But the way you loved me  
Left me hopin' and holdin' on  
So until this world stops turning round  
And my heart believes you're gone

I'll breathe in and breathe out  
Put one foot in front of the other  
Take one day at a time

Till you find  
I'm that someone you can't live without  
But until then  
I'll breathe in and breathe out

We were meant to be, girl, there's no doubt  
If it takes the rest of my life  
For you to figure it out

I'll breathe in and breathe out  
Put one foot in front of the other  
Take one day at a time

Till you find  
I'm that someone you can't live without  
But until then  
I'll breathe in and breathe out
