

# Catch You While I Can

David Nail

When rooms are crowded eyes will wander  
Never knowing what they'll find  
I came in waiting on another  
Now you're all that's on my mind

Beneath a chorus of conversation  
What no one else can see  
Is a gamble between two strangers  
That's taken a hold of me

So, let go of your halo  
Break free for a while  
Tell me that you're ready  
And into the night  
Wrong or right  
Before it slips right through our hands  
Let me catch you while I can

My courage rises, I walk over  
Your curled smile calms me down  
Words come easy, I keep you laughing  
I should stop but I don't know how

So, let go of your halo  
Break free for a while  
Tell me that you're ready  
And into the night  
Wrong or right  
Before it slips right through our hands  
Let me catch you while I can

When midnight turns into daylight, maybe we'll both move on  
But who knows, maybe tomorrow, lonely will be long gone  
Be long gone

Come on, let go of your halo  
Break free for a while  
Tell me that you're ready  
And into the night  
Wrong or right  
Before it slips right through our hands  
Let me catch you while I can  
Let me catch you while I can
