

Power

David Phelps

No mountains ever moved one inch at my command
No waters parted at my feet
I'm just a witness to the wonders God can do
Through willing instruments like me
And when my best seems insignificant and frail
He offers me the source of strength that cannot fail
Power, straight from the Father
Making me stronger
And I know it's not my own
Power, straight from the Father
Love like no other, I've ever known
There are days when circumstances spin out of control
In ways I just can't understand
It's as if the best of my intentions have conspired
To reveal how powerless I am
But there is One whose voice alone
Brings me peace
And when on high, he hears my cry
He gives to me
This holy energy can save, redeem and heal
Like electricity, it flows through me and I can feel
