Underneath a burning sun
There's alway work to be done
We take much more than we caare to give aw

You'll be the moth, I'm the flame
I'll bless you and keep you
 safe and sou

Until sunrise
 comes around again
I'm like a mou

 stone
I'm like a new
 day dawning
I'll be here e
very morning,
 close to you
We'll sail on
a river, way o

Love will kee

And the tide w

close to me

Love will kee

I picture the passions on your face

Feelings that rise on a wave and fall away

All the pleasures have retrned

All of the lessons I should have learnedReturn again to light, for us to see

You're like the map of buried gold

I search for treasures in your soul

And when I'm gone, you'll know I will come back to you

We'll sail on a river, way down to the salty sea

Love will keep us togetherAnd the tide will draw you close to me

(Never words so true, never words wio wisee)

Love will keep us together'Cause there's more to this than meets the eye

I'm like a mountain made of stone

I'm like a new day dawning

I'll be here

1very morning
4 close to you
