

# Blinded

David Usher

Turn me out then turn me on  
Pretty flower can you tell me what's become of who we are  
Only asking what you'd like tonight  
Well take America  
Just shake my tits and ass yeah we'll go far

And if we wanted more  
Then that was only what we thought our right was  
Only wanted more but we were always blinded  
Here we want to try  
But I can't try to be as plain as daylight  
Looking to the world  
But we were always blinded

Sell a little bit to you  
A circus sideshow but the makeup's shining through it's not so bad  
Is there anyone to know  
Forget my politics just sex me 'til I'm done it's not so hard

And if we wanted more  
Then that was only what we thought our right was  
Only wanted more but we were always blinded  
Here we want to try  
But I can try to be as plain as daylight  
Looking to the world  
But we were always blinded

And all the stars are out for you  
And everybody's hiding here  
And all the stars have come unglued  
But everybody everybody's changing  
We're changing  
We're changing

And if we wanted more  
Then that was only what we thought our right was  
Only wanted more but we were always blinded  
Here we want to try  
But I can't try to be as plain as daylight  
Looking to the world  
But we were always blinded  
Always blinded

And all the stars are out for you  
And everybody's hiding here  
And all the stars have come unglued  
But everybody everybody's changing  
We're changing  
We're changing  
We're changing

Thank you
