## Blue

## **David Usher**

Breathe blood is in the water Hold on tight i'm coming I'll be there soon Keep your eyes high on the horizon All the clouds are falling Between me and you

And you've grown so cold Too numb to notice That the sky has turned so blue

Fight even underwater Struggle makes it harder There's nothing left to do Don't close your eyes even for a moment Even for one second I'll be there soon

And we close our eyes Too numb to notice That the sky has turned so blue
