

Everything Is All Right By Me Now

David Usher

conscience has come its incest as always
made us believers
mine is not the one wanting
fought off desire
everything is alright by me now
nervous and numb
flew over the top of it
outstretched each arm with a reason for being
fought off denials
everything is alright by me now
everything is alright

i can feel it
life is changing just around the bend
its waiting i can feel it
life its changing just around the bend
its waiting

smile at the world
an unconscious ending take one last look
mine is not the one wanting
undress desire
everything is alright by me now
everything is alright
i can feel it
life is changing just around the bend
its waiting
i can feel it
life is changing just around the bend
its waiting
