

# Final Thoughts And The Last Day On Earth

David Usher

Heaven haunts me kill for a cigarette  
Heaven is all that I got

My god left me without one word of warning  
My god left me waiting is all that I got

I've seen your face before  
I've seen your anger crashing down  
All my life I've seen your babies  
Crashing to the ground

Needle brought me comfort to keep me stable  
Comfort, paid for  
Comfort is all that I got

My god left me without one word of warning  
My god left me  
My god is all that I got

I've seen your face before  
I've seen your anger crashing down  
All my life I've seen your anger  
Crashing to the ground

Don't be afraid  
Don't be afraid  
We're all afraid

I've seen your face before  
I've seen your anger crashing down  
All my life I've seen your babies  
Crashing to the ground

Don't be afraid  
We're all afraid  
Don't be afraid  
We're all afraid  
Don't be afraid  
We're all afraid
