

Hey Kids

David Usher

Speak
Speaking for myself
Pretend I'm someone else
I never felt the same
Well this time
Breathe
I'm breathing up the air
It's burning up my lungs
It's burning through my hair
I never felt

Hey kids
What are you rocking for?
Hey kids
What are you rocking for?

Stick
A finger through the sky
I'm blowing up the sun
The earth is going to die
I might die too
And all the things I love
And all the things I need
I never quite receive
And it's still

Hey kids
What are you rocking for?
Hey kids
What are you rocking for?

And I
Am standing in the rain
I'm laughing at myself
Today, today, today
And I
Am breaking from the strain
I'm laughing at myself
Today, today, today
And I
Never needed more
Than all of your bodies
Don't you know
I never needed more
Than all of your love

It's only been a game
Palpitation of the heart
I never wanted more
So maybe we could play
It's only been a game
The bleeding of the heart
You let your missiles fire
And we all start to run

Hey kids
What are you rocking for?

Feel it for the first time
Hey kids
What are you rocking for?
Feel it for the first time

Hey kids
What are you rocking for?
Feel it for the first time
Hey kids
What are you rocking for?
Feel it for the first time

What are you rocking for?
