

Hope (Tell Everyone)

David Usher

Light breathe exhale
the damage is done
tonight we've failed
so tell everyone
the ships have gone by
tell everyone
i took them from the sky
you are the one
who gives me hope
you are the one
who gives me hope
tell everyone
wait fight don't hide
the sun has gone pale
I'm locked outside
the desert's gone cold
these flowers wont survive
the mountains just laugh
and smile as we go by
you are the one
who gives me hope
you are the one
who gives me hope
tell everyone
