Love Will Save The Day

David Usher

[Woman's voice:] It really is a revolution.

The pornography made me do it So those drugs that got us high Was the thoughts of revolution They've been poisoning my mind So I'm walking down to the water You keep coming up for air All those people, they don't give a damn They just stood around and stare And I say,

Love will save the day [x4]

Come on sell me more of your religion 'cause it's sure to make a change Last night god was on the TV screen Taking dollars for their pain Come on talk about that evolution It's been poisoning my mind I've been poisoning for a saviour I've been waiting for a sign And I said,

Love will save the day [x4]

I am walking I am breathing I can't hold you I can't set you free [x2]

[Woman's voice:] We are talking about a society in which there will be no roles other than those chosen or those earned. We ar e really talking about Humanism.

Love will save the day If love will save the day [x2] If love will save today

Maybe tomorrow [x10]
