

## See You Fall

David Usher

Just another afternoon and I'm choking down tea for two  
When you've flown so far away, and you know I'm waiting  
When the consequence of rage comes crashing through the living  
room floor  
When I thought id found a life, seems I've been mistaken  
So I'll take the paid holiday, but I just can't set foot on the  
plane  
Well your voice gets in the way, guess I'll drive cross country

I see you fall I see you fall,  
I've never seen you look so beautiful  
well my suits been pressed and cleaned  
And I've never seen you people before  
Well we'll wander through the town  
And we'll sing our sad songs  
As I lower you into the ground  
And you've never seen these people before  
With the bullets falling all around  
And they sing their sad songs

I see you fall I see you fall, I've never seen you look so beautiful  
I just keep moving, I see you watching  
I see you waving from the window  
And I think I'm falling  
Just keep driving  
There is nothing to forgive now

And I see you fall I see you fall  
I've never seen you look so beautiful  
hold on, hold on, hold on.....
