

## Soldiering

David Usher

Tell me the story of your life,  
And how you thought you would never fail  
Tell me about the plans you had  
That you couldn't unveil  
And into these things we ought  
We would walk until we could not crawl  
And underneath the rocks, we used to share that we would never  
fall  
And we keep soldiering on  
We keep soldiering on  
Till its done  
Winter, she came quick and buried me beneath the ice  
In the raw and in the flesh and in the weeds, I was tranquilize  
d  
A leopard changes up his spots, I tend to bite my tail  
Took you in so far, inhaled till I could not exhale  
And we keep soldiering on  
We keep soldiering on  
Till its done
