

# We Are Wolves Here (Electric City)

David Usher

Live hate  
Blind faith  
Breathe deep  
Takes me  
We hold fast  
Won't last  
And night falls  
It's just  
It's just as well

And if we danced all night  
Fell so deep  
If we could live to tell  
What our eyes have seen  
We are wolves here  
And so I held you tight  
Dared to confess  
So you could feel my body  
Steal each breath  
We are wolves here

Taste the electricity  
City unwinds 'till we believe  
And joy has left  
Burns until it's dead

And if we danced all night  
Fell so deep  
If we could live to tell  
What our eyes have seen  
We are wolves here  
And so I held you tight  
Dared to confess  
So you could feel my body  
Steal each breath  
We are wolves here

Live hate  
Blind faith  
And joy has left  
Burns until it's dead

And if we danced all night  
Fell so deep  
If we could live to tell  
What our eyes have seen  
We are wolves here  
And so I held you tight  
Dared to confess  
So you could feel my body  
Steal each breath  
We are wolves here
