

Just Beneath The Surface (Reprise)

Dawes

And when the singing is through
There's not much else that I can do for you
Which might be more than what you'd want
But less than you'd expect

From a coded dream
From a final scene
Where all the heroes and the villains intersect
And that lost feeling through the credits feels correct

Just beneath the surface
There's another one of her
The one I'm taking with me
The one that I prefer
After all her reasons
But right before she left
Just beneath the surface
Is where she will stay kept

Just beneath the surface...
Just beneath the surface...
