

## And I

Dawid Podsiadło

The park, streets, your home feel oddly empty  
I don't recall your face smiling  
You try to act the same but hopelessly  
You are my place, the place where I'm stuck in

And I know that you saw me  
There in the crowd I stood alone

And all of these beautiful memories seem like a giant blur  
We were, we're not something more, we're sick impossible to cure  
And I'd like to be there on the same train that you are on  
But I know your love is for someone else to be owned

And I know that you saw me  
There in the crowd I stood alone

And I know that you saw me  
There in the crowd I stood alone

Please leave me 'cause I don't want to be  
The reason of your pain  
Just leave me 'cause it's a thing we know  
That nothing is gonna change

And I know that you saw me  
There in the crowd I stood alone
