

# Where Did Your Love Go?

Dawid Podsiadło

I asked you to stop and go  
I've burnt all my feelings so  
So I can no longer see  
The damage I've left in here

I'm asking again try  
I've seen all the monsters die  
Now I'm sure that I am the one to change  
So I still I still I still ask

Where did your love go?  
Is it real? Is it here?  
Where did your love go?  
I know it must be near  
Where did your love go?  
Is it real? Is it here?  
Where did your love go?

I'm begging the air to stop  
I know you think I'm feeling fine  
and you said the only world that I've seen  
Is the world with my monsters living

Where did your love go?  
Is it real? Is it here?  
Where did your love go?  
I know it must be near  
Where did your love go?  
Is it real? Is it here?  
Where did your love go?
