

## Nice Surprise

Dawn Golden

Don't let it scare you  
Don't be afraid  
You're cycling through many different things  
Many things

Glancing all around you feel  
It's all so incomplete  
But all it is, is something new  
That shook you off your feet

It's just a nice surprise it's just a nice surprise  
It's just a nice surprise for you

When you feel so indisposed  
You don't know what to say  
Listen to the music of the day  
Any day

Don't relate something new  
To something in your past  
That is what will hang you up so fast
