

## For Love

## Dawn of Destiny

There is one thing you can't deny  
Some call it true and some a lie

Something so hard to find in one life  
Something that we knew all need some  
Just for the way your heart tries to show  
And one day you gonna know  
...you gonna know!

We do it all and all again  
Don't even know how it began  
For love we bleed, for love we die  
We have to prove it ain't a lie

If there is something called destiny  
Tell me how some things can be  
A feeling deep inside you feel  
for whom? Is this real?

This feeling should give us the might  
To be honest, to make it right  
Still we hurt the ones we love  
And cry for help from above

When it's gone - the part has died  
Getting harder each time - we gotta fight

We do it all and all again  
Don't even know how it began  
For love we bleed, for love we die  
We have to prove it ain't a lie

With every love that dies  
And all our screams and cries  
We still keep holding on and on  
We will suppress our wounds  
And might betray ourselves  
For love, for not being alone

We do it all and all again  
Don't even know how it began  
For love we bleed, for love we die  
We have to prove it ain't a lie
