

# Ten Plagues of Egypt

Dawn of Destiny

Out of the slavery  
To worship God freely  
Moses will lead them back  
Away from Pharaoh's realm

But he refuses to let the people go  
They shall remain his slaves forevermore

Miraculous sign of warning  
To convince Egypt  
Israelite slaves to free  
The only way to be

No reaction to the warning God has send to him

I am the Pharaoh  
You have to obey  
No one will leave  
You all gotta stay

Ten plagues will cover Egypt  
Still you have the choice  
God will show his power to your land  
If you don't free all the slaves

Blood  
All the waters turn to blood  
and the Nile is painted red  
Frogs  
Overrunning Egypt land  
Still the curse can be removed

Gnats, fleas, flies, wild animals  
Still they do have to stay  
Pestilence  
All the horses had to die

Free the people, free them all  
Free the people, free them all

Ten plagues will cover Egypt  
Still you have the choice  
God will show his power to your land  
If you don't free all the slaves

Ten plagues will cover Egypt  
Still you have the choice  
God will show his power to your land  
If you don't free all the slaves

Boils, storms and locusts  
torturing Egypt soon  
Darkness covers the land  
And still they had to stay

After death of all first born males  
And all those cries

Pharaoh let them leave out of the slavery

Ten plagues will cover Egypt  
Still you have the choice  
God will show his power to your land  
If you don't free all the slaves

Ten plagues will cover Egypt  
Still you have the choice  
God will show his power to your land  
If you don't free all the slaves
