

## Torture Room

Dawn of Destiny

I feel that now it is inside my brain  
Don't know why but it makes me insane  
Something evil has now entered my life  
Don't know why but it cuts like a knife

Agony inside my mind  
I'll go out and kill you

Don't visit the church they are not to blame  
It's just the bad influence from outside  
Don't talk to my parents they don't even know  
I'm here alone in my torture room  
room

I try to run but it's too late to escape  
I'm hearing voices they come out of this tape  
Lyrics bother me though they are my idols  
I have to follow though it makes me suffer

Fury I'll let it out now  
Death comes ripping to you

Don't visit the church they are not to blame  
It's just the bad influence from outside  
Don't talk to my parents they don't even know  
I'm here alone in my torture room
