

# Castles

Dawn Richard

So high we could see clouds under our feet  
Built towers of dreams just to live carefree  
We knew it wouldn't last but we kept hope as our lead  
We stood right through the breeze and screamed out c'est la vie

Cause we built castles, castles made of sand  
Oh, cause we built castles, castles made of sand  
Please don't let it fall, fall, fall  
Please don't let it fall, fall, fall  
Please don't let it fall, fall, fall  
Please don't let it fall, fall, fall

Too close to the sea, the waves almost took me  
I held each grain to me, the tide won't take my peace

Cause we built castles, castles made of sand  
Oh, cause we built castles, castles made of sand  
Please don't let it fall, fall, fall  
Please don't let it fall, fall, fall  
Please don't let it fall, fall, fall  
Please don't let it fall, fall, fall

Even if it's just for a moment  
It's not much but it's ours  
We're standing on our love
