

# Gleaux

Dawn Richard

When you know  
The stars all start to shine  
And love wont lose the time

In the dark  
The hearts will cause a spark  
Alone you'll never walk

Cause we will never fade  
Well shine and light the shade

Well just illuminate  
Show our color ray

So baby lets gleaux away  
In the night they will see you  
Luminate  
Show em that we were meant to

Ooh ooh ooh  
Its a feel  
That some can comprehe-end

Its a chance to light  
And take a stand

In the dark  
The hearts will cause a spark  
Alone you'll never walk  
Oh  
Cause we will never fade  
Well shine and light the shade

Well just illuminate  
Show our color ray

So baby lets gleaux away  
In the night they will see you  
Luminate  
Show em that we were meant to

Gleaux  
Show em that you were meant to  
Show em that you were meant to gleaux  
Show em that you were meant to  
Show em that you were meant to gleaux  
You were meant to gleaux  
You were meant to gleaux  
We were meant to gleaux  
The hearts gonna gleaux  
Gleaux  
Gleaux
